KON SOLUTION	
	Consistency with field trips
	Better field trips at Hampden Meadows
	Learning events
	Go to locker whenever needed
	Start times at 8:15
	Schedule overall
	<ul> <li>Student engagement/ say on things</li> </ul>
	• RDI – spread this practice – choice in strategies for Math like at Hampden Meadows
	Outdoor learning
	Freedom of thought
	More Kahoots
	Learning styles (for all)
	Bathrooms
	<ul> <li>Blocked websites and access to good ones</li> </ul>
	Lunch
	More ozobots
	Need AC
	Need class pets
	Need Makey Makey
	<ul> <li>Recess equipment (soccer, basketball)</li> </ul>
	Every class chromebooks
	Need secret Santa
	Better bike racks
	Variety of books and new
	Wifi connection
	Better coloring supplies
	<ul> <li>Treated differently ("will shoot you down") if not in AP or advanced classes.</li> </ul>
	Improve communication about club options/support to approval/opportunities
	<ul> <li>Consistency in teaching practices between subjects and levels</li> </ul>
	• Sometimes all students in a class do poorly; shouldn't the teacher think about that?
	<ul> <li>More teachers that are energetic, motivates, gets students involved, and doesn't</li> </ul>
	teach down to you
	<ul> <li>Teachers could provide support for different learning styles</li> </ul>
	Option to switch teachers seems inconsistent
	<ul> <li>Parents are highly influencing competition (#s, tests, results)</li> </ul>

• Focused on grades over learning

	<ul> <li>Communication between teachers about testing</li> </ul>
	Listen to students about stress
	<ul> <li>Better collaboration between teachers (Example: Literature &amp; History)</li> </ul>
	More integration across subjects
	Address mental health (2 suicides in the community); for 1 week then forget; give
	students more closure and more resources
	<ul> <li>More presentations about mental health awareness (like the ones for drug</li> </ul>
	awareness); club option
	<ul> <li>Hard to get an appointment with guidance; consistency between counselor</li> </ul>
	practices/accessibility
	<ul> <li>Increase teacher respect for time with guidance</li> </ul>
	• Restrained (WiFi, sign-out when 18 years old, going outside, classes—options based
	on scheduling)
	Inconsistency
Family and	Discrepancy between meeting notes and actual school committee meeting
Community	Start time
Members	<ul> <li>Opportunities for acceleration at middle and elem</li> </ul>
	<ul> <li>Communicating/ advertising value of senior project</li> </ul>
	Student stress level
	<ul> <li>5 minutes more in each class at Open House</li> </ul>
	Listen to teachers more
	<ul> <li>Communication from schools to parents – know the why</li> </ul>
	High school website
	<ul> <li>District website – hard to navigate</li> </ul>
	<ul> <li>Careful about changes – clearly communicate and include all</li> </ul>
	Standards-based grading
	<ul> <li>Commit to communication with processes for engagement.</li> </ul>
	<ul> <li>Shift from reactive to proactive approach and embrace change.</li> </ul>
	Implementation of personalized learning to support opportunities for individualized
	enrichment and growth for all students.
	Expand pockets of excellence in all departments.
	• Introduce, develop and implement a systems focus for all aspects of BPS operations
	and improve alignment of all systems operations with strong collaboration.
	<ul> <li>BPS website is insufficient to meet community and BPS needs and requires</li> </ul>
	substantive change and improvement.
	<ul> <li>Support for recruitment and retention of the best employees.</li> </ul>

Leadership training in core leadership skills performance management, key
communication skills, and teamwork.
• Manage data to create key performance drivers aligned to School Committee and BPS executive team priorities.
Determine best practice metrics to monitor progress aligned to key performance
drivers.
<ul> <li>Integrate principles of continuous improvement process with School Committee governance model.</li> </ul>
Decisions made w/ no input
Detailed School Committee agendas
Advanced notice of topics
Consolidate administrative jobs to free up money
Sensors on light to increase energy efficiency
Transfer of practices from high school to middle school
Class size
Agility transportation to address needs
Improved middle school standards
<ul> <li>Hampden Meadows – weird to have just 2 years at a school</li> </ul>
<ul> <li>Awareness of families w/ 2 working parents</li> </ul>
Individualized attention to learner needs
Thinking outside of the box
<ul> <li>Inconsistency of teacher practices and support at high school</li> </ul>
<ul> <li>Lack of advisory at high school; maintaining connection formed in middle school</li> </ul>
<ul> <li>Inconsistent class sizes across the district</li> </ul>
• Allowing students to choose the method that works for them for solving the math
problems (as one example of personalization)
<ul> <li>Special opportunities not available at the elementary level</li> </ul>
<ul> <li>No foreign language or coding at the elementary level (but available at Sowams)</li> </ul>
Equity for best practices across schools
<ul> <li>Inconsistency of teacher practices</li> </ul>
<ul> <li>No demand for use of best practices; impact of union</li> </ul>
Teacher absenteeism
<ul> <li>Consistency across practices in teacher clusters ("If 2 out of 4 teachers are good;</li> </ul>
you're in good shape")
<ul> <li>Perception that teachers with performance issues are moved around, instead of</li> </ul>
addressing it
0 -

Resistance to try new instruction
<ul> <li>Need consistent replacement in cases of medical leave</li> </ul>
<ul> <li>Banking of sick days; terms of the contract</li> </ul>
Operation of schools in silos
<ul> <li>Perception that district focuses more on achievement of middle and high school</li> </ul>
Connect to global community
<ul> <li>Engaging those in community without children in the system</li> </ul>
<ul> <li>Decrease variation across levels in support and teaching in 4-8 grades</li> </ul>
<ul> <li>Deeper opportunities to do projects, not just remembering for a test</li> </ul>
Learning across years
<ul> <li>Meet in middle school as clusters, not individual meetings with teachers</li> </ul>
<ul> <li>4-5 grades consistency in teachers and practices</li> </ul>
Starting languages earlier
• Too many transitions between grade levels (k-3, 4-5, 6-8, 9-12); short time does not
support connecting
Transition time between classes (movement) would help; parts of day mixed more
<ul> <li>4-5 takes away the time to be young; growth to fast</li> </ul>
<ul> <li>Ensure structure of school levels best supports students</li> </ul>
Class size should be smaller at elementary level (aligned to national and state
averages)
<ul> <li>Ensure right challenge for gifted students (4-8)</li> </ul>
<ul> <li>Improve support for broader range of students (those who do "good enough")</li> </ul>
<ul> <li>Effective classroom depends on teachers' ability to differentiate</li> </ul>
Guidance should be more proactive at the high school (know students better and
not wait for parents to contact them, help in knowing which classes to take,
identifying issues with students)
<ul> <li>Is ratio correct for guidance counselors/ students?</li> </ul>
Change school start time (finish last strategic plan); too early, lack of sleep impacts
overall health
• If a concept works well and we spread it, let's make sure we plan and are intentional
and are ready to implement
<ul> <li>Improve outreach to parents at middle and high school to increase PTO</li> </ul>
Be student-centric and evidence-based consistently across the district and then
share when it's successful so that others adopt; hold people accountable if they are
not student-centric and evidence-based
<ul> <li>New initiatives impact fidelity/ attention to old stuff that works</li> </ul>

<ul> <li>Don't have room for everything – empowering to try those that work (choose)</li> <li>Valuing teacher voice (standards-based grading, applying new initiatives withou attention to data)</li> <li>Some teachers refuse to listen, enter dialogue, and collaborate on pushing the teaching</li> <li>Teacher absenteeism needs to be addressed; contract prevents policy enforcem</li> </ul>	art of
<ul> <li>attention to data)</li> <li>Some teachers refuse to listen, enter dialogue, and collaborate on pushing the teaching</li> </ul>	art of
• Some teachers refuse to listen, enter dialogue, and collaborate on pushing the teaching	
teaching	
	nent
• Teacher absenteeism needs to be addressed: contract prevents policy enforcem	nent
<ul> <li>Administrators should engage and make environment engaging for teachers to</li> </ul>	
improve attendance	
<ul> <li>Enforce policies that you make (teacher attendance)</li> </ul>	
<ul> <li>Communication (opaque writing, spelling and grammatical errors, have to decord</li> </ul>	de
back into plain English, not candidly and briefly talking about what's happening	and
what I can do about it)	
Accessibility of teachers	
<ul> <li>Communicate early and engage before bringing a fully-developed topic to</li> </ul>	
stakeholders (standards based grading as ex)	
<ul> <li>Be transparent about feedback and who's feeling what</li> </ul>	
<ul> <li>Present pros and cons as you explain a decision</li> </ul>	
Communicate the WHY	
<ul> <li>Sometimes you need to lead – make decisions and stick with them. If you've do</li> </ul>	ne
the due diligence and shared the data and taken the steps to get buy-in, then n	nake
the decision and stick to them.	
<ul> <li>Request for why or why you decided and get no explanation; get blank stare lik</li> </ul>	e
"why should I explain"	
Lack of leadership	
<ul> <li>Some leaders want to be liked and that's not always leadership</li> </ul>	
<ul> <li>Lack of feedback on student progress to families and students that fosters</li> </ul>	
complacency. Not aspiring for something more.	
<ul> <li>Be student-driven more than data-driven</li> </ul>	
<ul> <li>Consistency of effective teachers</li> </ul>	
Hamden Meadows	
<ul> <li>Way to coach teachers for improvement</li> </ul>	
<ul> <li>Support for diverse learners</li> </ul>	
<ul> <li>Communication about programs</li> </ul>	
<ul> <li>Communication with Why, What, How (consistent)</li> </ul>	
Communication director needed	
Need ambassador program to HMS	

A HURON SOL	LUTION
	<ul> <li>Thinking outside the box about buildings (2 and 3 Tier)</li> </ul>
	Social/emotional goal for district
	Foreign language at all levels
	Mindful minute
	<ul> <li>Consistency of programs-transfer of programs</li> </ul>
	Consistency of SPED resources
	Keyboarding and coding
	Take care of buildings
	Writing instruction in k-3
	<ul> <li>Developmentally appropriate skills education</li> </ul>
	<ul> <li>Social/emotional support/case-workers</li> </ul>
	<ul> <li>Support and training for initiatives</li> </ul>
	Stress and anxiety support
	Meaningful change
	<ul> <li>How we compensate subs to have more</li> </ul>
	Balance of fundamentals
	Community partners (more)
	Start time change implementation
	Differentiation at elementary (all levels)
	Get out the positives
	<ul> <li>Inconsistent in lower grades (across buildings and clusters)</li> </ul>
	• Equity
	Community support fractured
	Evidence for all programs
	MS differentiation
	<ul> <li>Admin too good at listening to parents</li> </ul>
	Do less and do it better
	<ul> <li>HS students need to be allowed to be young</li> </ul>
	Extreme pressure at HS
	Teacher absenteeism
	Support for Middle learners
	Time for play (longer lunch)
	• 7th lack of PE
	Use of class time effectively
	<ul> <li>Negative perception of schools in some cases</li> </ul>
	Town members not understanding or appreciating the importance of schools and

outcomes Communication with non-school population Communication in general • Fiscal transparency Stress reduction of students – teach how to destress, mindfulness Competitive environment • Development of healthy habits • Tell the good stories • Short list of wins, to not get lost in the noise • Reduce noise and jargon Explaining importance of stability, impact on budget • Fiscal constraints stifle innovation – budget under microscope • Explaining sources and uses of funds Better shared services (facilities, IT) • Transportation - effective use, cost-benefit, volume of cards • Change start times - settle the issue, benefits and costs • Summer school and after-school program • Intramurals Access to sports Full time SRO Community Support Surveillance outside of buildings • Substance abuse • Trumpet our success and what we are doing (our educators) • Don't let folks fall through the cracks • Communication in both ways (2-way) needs to improve - system orientation of ongoing opportunities to connect and communicate. A structure that helps us have those options and avoid being reactionary. Create a process for teachers and School Committee to communicate • Ensure that there are channels for effective communication • Gone so far into the FB presence at expense of website. Hard to find the information you need. • Feel like we are holding them accountable - teachers and administrators • Would appreciate opportunity to understand the presentations and be able to ask questions and have data presented in meaningful ways

• At school committee, presentations not provided in advance and given opportunity

A HURON SOLUTIO	
	to ready for questions, conversation. Perhaps workshop session would be better.
	How should a School Committee member respond when teachers/ parents come
	directly to us?
	Enhance communication and collaboration with the administrative team/ School
	Committee
	School Committee meetings are set up to work on certain things at certain meetings
	Spotlight on Learning as a workshop, expand to social emotional progress, too
	Use meetings for operations decisions.
	• Align our agenda to specific pillars – when we have a plan, get focused on it and use
	our meetings to complete it.
	• We at this building need to fade into the background and let the focus be on what
	schools are doing.
	• If I can trust that the work is being done well, like curriculum and instruction, then I
	do
	• Feel that there is a gate to us. That no one can get to us. There is a wall between us
	and the teachers, and parents. No exchange of information. Would appreciate more
	resolution, and more opportunity to engage
	Communication plan needs to be implemented.
	• The new newsletter template for schools is terrible. Can't get connected to the
	information easily.
	Website is very difficult to maneuver. Looks good but does not communicate
	effectively. Not our source of information – Google document dump.
	Robust communication and engagement
	• Disciplined, meaningful asking students how they are experiencing schools
	Use feedback to act differently
	• Empower administrators to excel as well. Some things we do, don't empower them.
	• Drive interest, passion, and highlighting of pathways options by providing options
	and celebrating the range of pathways to graduation
	Connect the importance (for college application and other things)
	Embrace change – not just because we have always done it
	Engage, ask employees for feedback about fiscal decisions
	Prepare for continued fiscal challenges
	<ul> <li>Be a system and ensure that people understand we are a system</li> </ul>
	Ensure that we implement the ideas we have
	<ul> <li>Develop people's awareness of how to do intentional work</li> </ul>
	• Teachers being better at adapting to students' learning styles and students having

	the opportunity
Employees	More pro-active, not reactive (high impact of parents, but a small group)
	<ul> <li>Don't leave educators out of major decisions, ask for expertise</li> </ul>
	School start time-not resolved
	<ul> <li>Daily schedule-teacher assignments</li> </ul>
	<ul> <li>Use the feedback; don't make the decisions beforehand</li> </ul>
	<ul> <li>Loudest, most "connected," persistent get what they ask for</li> </ul>
	<ul> <li>Disparity of steering committee representation of teachers</li> </ul>
	Empower educators in order to empower kids
	Reduce new initiatives
	Focus on a few and master them
	Advance us, don't rest on laurels
	<ul> <li>Leaders don't lead, meaning answer questions and follow-up</li> </ul>
	<ul> <li>PLC-implement, not just talk across the school</li> </ul>
	Physical model, schedule
	o Organization is "old" when trying to do "new"
	o Hierarchical structure
	o Inconsistent messages
	<ul> <li>Shared vision-what do we want the school to be and do?</li> </ul>
	<ul> <li>Less "we've always done it that way"</li> </ul>
	<ul> <li>Initiatives and diversity, cause challenges</li> </ul>
	Communication
	Follow through
	<ul> <li>Planning for implementation of initiatives</li> </ul>
	Empowering/supporting teachers (voice)
	Restrictions: top-down, curriculum, evaluations, field trips, videos, materials, food
	<ul> <li>Trust for decision-making (parents, administrators, community)</li> </ul>
	When student get services
	Parents' influence on decisions
	Business-like administration
	<ul> <li>Streamline online grading and learning platforms</li> </ul>
	<ul> <li>Building administrators freedom to make decisions (and teachers)</li> </ul>
	<ul> <li>Process for addressing issues (honoring the process)</li> </ul>
	<ul> <li>Social/emotional, stress of teachers-creating division</li> </ul>
	<ul> <li>Recognition of good work, meaningful results, best practices</li> </ul>
	Equality

• Equity
Too much change
<ul> <li>Community education on how to reduce stress from home (Aps, no interventions,</li> </ul>
college acceptance)
<ul> <li>Explain to parents about the ALL we are supporting and what we do to support all</li> </ul>
students
<ul> <li>Improve collaboration between special education and general education</li> </ul>
<ul> <li>Teachers are really hard on themselves – hone in on negative; need to celebrate</li> </ul>
<ul> <li>Best in state adds stress to teachers, students, employees, leaders</li> </ul>
<ul> <li>Negative feedback from school committee and community can be detrimental to</li> </ul>
continuous improvement.
<ul> <li>1 comment can destroy hours of work.</li> </ul>
<ul> <li>Small group of people can influence broadly – and negatively.</li> </ul>
<ul> <li>Reactive to concerns which takes us off our priorities.</li> </ul>
<ul> <li>Assumptions are made without knowing the facts of why something occurs; making</li> </ul>
them public can be hurtful to others
<ul> <li>Reputations of 3 elem schools can be negative or be "pitted" against each other.</li> </ul>
<ul> <li>Others don't appreciate that it takes time for decisions are made deliberately –</li> </ul>
thoughtful and full discussions
<ul> <li>Reframe School Committee to policy-making body</li> </ul>
Focus on the positive – majority of our parents are positive about their experience
<ul> <li>Same with teachers – we can focus on small number of negatives</li> </ul>
<ul> <li>Understand the needs of the majority and know when it's the voice of a few and</li> </ul>
address that respectfully and appropriately
Community have empathy
<ul> <li>Better follow the chain of command when we are dissatisfied.</li> </ul>
Foster trusting relationship with Committee so that they feel comfortable sending
complaints back to leader and knowing that it will be taken care of.
Support diverse learners accessing core instruction – embrace inclusion and need to
develop teachers to not over-protect students with special needs
<ul> <li>Focus on data – 9 school committee meetings on presenting data. Would like a</li> </ul>
deeper level of data (more personal) than allowed. Want to go deep and get
frustrated that we can't provide; also need to connect their expectations and what
matters most. Adds stress to the leaders to prepare.
Committee needs to know the best question to ask – how do we support you in the
process? What supports or materials do you need to get it done?

<ul> <li>SC sees themselves as problem-solvers.</li> </ul>
<ul> <li>Ask for data that may not actually help them do their job. Too many reports take</li> </ul>
time away from leaders and then are not necessarily used to make coordinated
budget decisions.
<ul> <li>Committee can sometimes make decisions based on few loud voices.</li> </ul>
<ul> <li>Streamline assessments, integration of subjects</li> </ul>
Move away from standards
<ul> <li>Things are a show for the School Committee</li> </ul>
<ul> <li>Communication, transparency about things that matter</li> </ul>
<ul> <li>Confidentiality of personal matters to be honored, admin to staff</li> </ul>
Stress levels reduce
Retention of staff
<ul> <li>Targeting of staff/ unfair treatment</li> </ul>
<ul> <li>Better vetting of new initiatives and fewer</li> </ul>
<ul> <li>Time as professionals valued (meetings, work life blend). Lack of personal and</li> </ul>
professional boundaries
<ul> <li>Worthwhile and thoughtful PD – teacher driven</li> </ul>
Listen to teacher voice
<ul> <li>Well-planned use of SPED, RTI, ELL, Arts</li> </ul>
Beginning of year schedule
<ul> <li>Consequences for students, accountability</li> </ul>
<ul> <li>Substitutes – treatment and expectations</li> </ul>
• Common planning time is not always time to plan – may be time to "pile things on"
o Varies within and between schools
<ul> <li>Way too many initiatives and needs to decide what to focus on</li> </ul>
<ul> <li>Initiatives that are new sometimes push prior practices backwards</li> </ul>
Flavor of the month
<ul> <li>Building the plan as we go, but plane is never finished</li> </ul>
<ul> <li>Continue to see in communication of hopes, dreams, and concerns – disseminated</li> </ul>
into different groups so that not everybody gets all information at the same time.
<ul> <li>Communication within the district and out to community can be improved</li> </ul>
<ul> <li>Community may not view the district as transparent and as public as it was.</li> </ul>
Mistake like not posting Steering Committee happens too often; sometimes when
and how you find out the information it makes us struggle to get it done.
<ul> <li>At every level, there's pressure – and it impacts through all of the system. Takes</li> </ul>
away from bottom-up collaboration. "I'm answering to so and so".

<ul> <li>Teachers feel they have lost their voice.</li> </ul>
<ul> <li>Respect to teachers' knowledge, expertise, invited into conversations. District</li> </ul>
perceives that they are inviting us into the conversation, but we are not.
o At curriculum selection – teacher influence doesn't really happen. Committees
make recommendations but then a different decision is made.
Better process for adoption of curriculum and materials that includes genuine pilot
and shares the evidence of success when a decision is made.
<ul> <li>Process and protocol for curriculum adoption needs to be followed.</li> </ul>
<ul> <li>All elementary school teachers should be able to meet together – good work has</li> </ul>
been accomplished and we knew what was going on across district when we did
that. Led to cohesion across schools in grade levels.
<ul> <li>Sometimes money is spent on things that are given to us that we don't even want.</li> </ul>
<ul> <li>Sometimes financial decisions halt our progress at implementing good ideas.</li> </ul>
Improve professional development in the district. Ask teachers: what do you need
to improve your craft? Differentiate professional development for individuals.
<ul> <li>We have heard, "Teachers don't know what they need." It shouldn't be ok to say</li> </ul>
that. Disrespectful. We get so many accolades but then these kinds of things are
said.
Professional development may mean something different to admins. When I want
to take a PD based on my own plan, I may be told to take a personal day and pay for
it myself.
<ul> <li>Deeper learning is a district initiative but we haven't been trained.</li> </ul>
<ul> <li>It's all for show and it's not real.</li> </ul>
<ul> <li>Make sure our curriculum discussions are age-appropriate for PK-3.</li> </ul>
<ul> <li>Implementation of curriculum across schools not effective, seems to go from</li> </ul>
assessment to assessment.
<ul> <li>Asked to do things that are out of scope: Ex: progress reporting committee could</li> </ul>
have used a workbook, a resource, to be able to do what was asked.
<ul> <li>When asked to do something different and new, not provided with resources to be</li> </ul>
successful.
<ul> <li>After you do the work and learn, then sometimes it gets changed.</li> </ul>
• If it's written down it's done. If it's posted on a Weebly it's done. Not everyone
knows what that is or how to access it. Changes occur and we don't know. We have
so many technological tools, not all of which we feel adept using: Fastbridge, Aspen,
Google Docs, Frontline. Humanities.
<ul> <li>Responsive classroom is not happening everywhere – overgeneralization.</li> </ul>

	Being trained does not mean that we have implemented with fidelity.
	• As a parent – transitions happen (i.e. HS) and we don't know or don't have access.
	<ul> <li>So many things, and expected to do everything well.</li> </ul>
	• A pack of lies that we are a PLC, that everybody knows responsive classroom. We
	are not a PLC, not everyone knows what it is. Some feel that people know that these
	things are not true, and still say it. With new programs, we ask if it's staying,
	someone says yes, and then we don't.
	• Sometimes it's a matter that people perceive things are going on even when they
	aren't.
	Google docs may be a great idea, but no training and not easily used by teachers
	• School Improvement Council/ Team – we have not had a plan at our school and we
	don't know if we execute on the plan as teachers. This make it hard to feel good
	about going to work each day.
	<ul> <li>Mindfulness is good, but what have we done that got us here?</li> </ul>
	• Pace and rigor of our expectations for students; can we stop and slow down to
	individualize based on our students' emotional needs? Don't feel we can. We're
	under pressure to jump through hoops for assessments.
	o More assessments at K-3 than any other level.
L
